POWER STATION AT TISZAPALKONYA

1. It is estimated that the new power station at TISZAPALKONYA will take anything up to another three years to complete. The girder construction, the side walls and two chimneys are already finished.
2. When completed the station will have six boilers and will be 15 metres high. It measures 70 metres long by 50 metres wide. It is said that it will consume three hundred truck-loads of coal per day.
3. Czechoslovak engineers are engaged on this work.
